EDUCATION

Avenues: The World School — New York, NY (9/2013 - 6/2029)

High School Diploma, Class of 2029

- Institute for Advanced Mathematics (IAM): currently studying integral calculus
- SAT: 1540 (9th grade)
- GPA: 4.0 (Unweighted)

Oxford Royale Academy — University of Oxford (7/2025)

Artificial Intelligence Summer Course

- Earned Merit Award for highest grade in class
 - Authored independent literature review on forward and backward propagation in artificial neural networks
-

RESEARCH

"A Mathematical Analysis of Forward and Backward Propagation in Artificial Neural Networks" (7/2025)

Independent Literature Review

- Introductory analysis of the mathematical structures seen in neural network training, including gradient descent, chain rule applications, and loss functions
- Written in LaTeX with references managed in Zotero; published at bingst0n.github.io

"Modern Computer Vision through the Convolutional Neural Network" (10/2025 - 6/2026)

In Progress Survey and Video Essay

- Literary survey and video essay featuring an expert interview on the history and evolution of the field of computer vision through the convolutional neural network
-

LEADERSHIP

Avenues AI Lab — Founder and Leader (1/2026 - Present)

Avenues: The World School

- Founded school club featuring lecture-style content on AI topics across STEM and humanities, hands-on activities, and independent student passion projects

Highline Math Competition — Leadership Team (9/2025 - Present)

Avenues: The World School

- Managed volunteer operations; coordinated with school administration; co-wrote competition problems; led outreach with local institutions for sponsorship
-

SKILLS

Programming: Python, experience with LLM APIs (OpenAI, Anthropic), LaTeX, Git/GitHub

Mathematics: Integral calculus, linear algebra fundamentals

Languages: English (native), Mandarin Chinese (near-native; studied from early childhood)

Music: Guitar, bass guitar, drums, vocals, piano; composition and music theory
